Felipe de Leon Saenz Angel

Curriculum Vitae

Rio de Janeiro, Brasil, — felipe.leon@impa.br —

WORK EXPERIENCE

Research assistant (postdoc)
May 2026 -
Institution: Universidad de Santiago de Chile.
Advisor: Nicolas Theriault

EDUCATION

Phd in mathematics
Year of completion: 2026
Institution: Instituto de Matematica Pura e Aplicada.
Advisor: Eduardo Esteves

Master in mathematics
Year of completion: 2022
Institution: Instituto de Matematica Pura e Aplicada.
Advisor: Eduardo Esteves

Bachelor degree in mathematics
Year of completion: 2020
Institution: Universidad de Santiago de Chile.

RESEARCH INTEREST

I am interested in applying techniques from combinatorics and tropical geometry to problems in algebraic geometry. More specifically, my research focuses on the theory of limit linear series and on the study of various scheme-theoretic constructions that arise in this context, including linked projective spaces and certain classes of Mustafin varieties.

Publications and preprints

1. Polymatroidal tilings and the Chow class of linked projective spaces (with Eduardo Esteves), *Published in Bulletin of the London Mathematical Society, Volume 58, Issue 5, May 2026.*

SELECTED RESEARCH TALKS

1. Bielefeld Algebraic and Arithmetic Geometry Seminar, 2025. Bielefeld University. *Title: The linked projective space* .
2. Combinatorial Synergies in Geometry and Number Theory, 2025. Instituto de Matematicas Puras e Aplicadas. *Title: Polyhedral tiltings arising from linked nets.*
3. Oficina Pernambucana de Geometria e Álgebra, 2025. Universidade federal de Pernanbuco. *Title: Polyhedral tiltings arising from linked nets.*

TEACHING

- Teaching assistant at Universidad de Santiago de Chile: calculus, real analysis and linear algebra.
- Teaching assistant at IMPA: algebra 1 and commuative algebra.

LANGUAGES

- Spanish: Native speaker
- Portuguese: Fluent
- English: Fluent
